

PACKAGED TURBINE SYSTEMS

PREFABRICATED & FACTORY TESTED

3rd PARTY CERTIFIED - UL/ C-UL LISTED SYSTEMS

ASME SECTION 9 WELDING

SINGLE SOURCE RESPONSIBILITY

NSF-61 BOTTOM FILLED BLADDER TANKS

TOUCHSCREEN OPERATOR INTERFACE CONTROLLER - UL LABELED

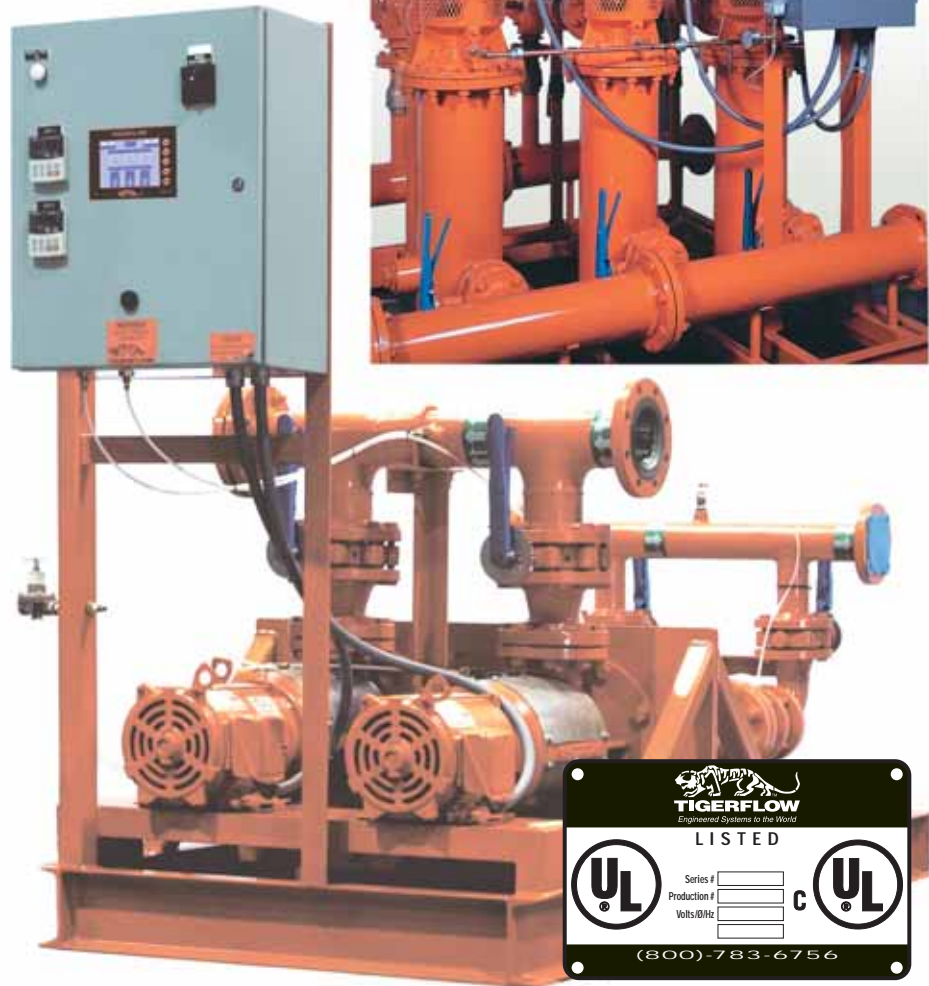

STANDARDIZED & CUSTOM DESIGNS

NSF61 Approved Systems Available

Canned, Wet Well Mounted, or Air-Over Construction available.

Cost-effective
engineered
packaged turbine
systems for
commercial,
institutional, irrigation,
municipal, process and
industrial applications.

TOP: Horizontal mounted Submersible Turbines with by-pass as required.

RIGHT: Vertically mounted Submersible Turbine available with by-pass.

**TIGERFLOW
Packaged Turbine Systems Specifications**

Standard Features

- Simplex, Duplex, Triplex, Quadraplex Models
- 3rd Party UL/C-UL Labeled Systems
- ASME Section 9 Certified Welding
- UL Labeled Power & Control Panels
- Non-electric Over-temperature Protection

Pumps & Motors

- Vertical Lineshaft Turbine
- Vertical Can Turbine
- Air-Over Turbine pumps
- Submersible Turbine Pumps
- Horizontal & Vertical

Headers

- Stainless Steel
- Type L Copper
- NSF-61 Epoxy Coated
- Galvanized

ASME Code Bladder Tanks -

- NSF-61 Approved

Tank Mountings

- Remote
- Adjacent
- Skid Mounted

Isolation Valves

- Butterfly
- Gate
- Full Port Ball

**Factory Tested - NIST Traceable Test Facility
Start-up & Field Training**

Options

- Custom Designs & Configurations
- NSF 61 Approved Systems Available
- Certified testing with X-Y Test Reports
- ANSI/NSF 61 Certified Valves & Coatings
- Special Materials
